MEMORANDUM FOR THE DIRECTOR, INTELLIGENCE COMMUNITY STAFF

SUBJECT: Intelligence Community Staff Temporary Assignee Billets

1. This memorandum confirms the concept agreed to by you and [redacted] during his visit with you on 19 Jan 83 regarding DIA fill of rotational billets on the IC Staff. DIA and the IC Staff should mutually identify billets on the IC Staff which would be permanently reserved for assignment of DIA personnel on a rotational, reimbursable basis. Such an arrangement not only would stabilize the management of our manpower resources, but also would foster a more meaningful Community approach to our common problems. DIA recommends we fully staff and conclude a Memorandum of Agreement (MOA) once these billets have been identified.

STAT

2. While our primary interest lies in those billets allocated for assignment of DIA personnel, DIA also suggests all members of the Intelligence Community be included in a similar identification of those IC Staff billets that would be reserved for their representatives. In this fashion the IC Staff can deal with a variety of problems with guaranteed expertise at its disposal. Concomitantly, the other members of the Community are assured of greater sensitivity to their concerns in the policy that comes from the IC Staff. Please have your staff contact the DIA primary point of contact, [redacted] at [redacted] to work out the details of this mutual billet identification and drafting of the MOA.
